SKILLS & TECHNOLOGIES

Expertise - ReactJS, React Router, Firebase, TailwindCSS, DaisyUI, Bootstrap, HTML5, CSS3.

Comfortable - Rest API, JavaScript, DOM, NodeJS, ExpressJS, MongoDB.

Familiar - Stripe, JWT, NextJS, TypeScript, Redux, MySQL.

Tools - Github, VS Code, Chrome Dev Tool, Netlify, Firebase Hosting, Vercel, npm, Figma, etc.

PROJECTS

- Rhythmax - Course Selling Website

[[LiveSite](#) - Client - Server]

The website offers courses for sale and provides features to view, add, update, and delete course details. It showcases courses from various instructors and facilitates users in purchasing them through secure payment gateways.

Technologies: ReactJS, NodeJS, ExpressJS, JWT, Stripe, Firebase, TailwindCSS.

- Visually appealing design with pleasing color contrast, proper alignment, and customized component styling.
- Registration and login system with social login options, error handling, and conditional display of profile picture or login button.
- Dashboards for students, instructors, and admins with features such as class selection, enrollment, payment, feedback, and management of classes and users.

- Puzzle-Playground - A Dynamic Toy Marketplace

[[LiveSite](#) - Client - Server]

In this project, I developed a secure and visually appealing website with seamless user authentication, modern UI/UX elements, and comprehensive CRUD functionality integrated with a robust database.

Technologies: ReactJS, NodeJS, ExpressJS, Firebase, TailwindCSS.

- I have implemented a secure user authentication system, including email/password login, and third-party sign-in.
- Designed and developed a visually appealing, responsive interface with modern UI/UX elements, ensuring seamless user experience across devices and screen sizes.
- Developed comprehensive CRUD functionality and integrated with a database.

- Chef Hat - Recipe Website

[[LiveSite](#) - Client - Server]

In this project, I developed a secure website with robust user authentication (email/password & social media login) and comprehensive chef profile and recipe management, enhanced by a dynamic React Router-based routing system for seamless navigation.

Technologies: ReactJS, NodeJS, ExpressJS, Firebase, BootStrap.

- I have implemented robust user authentication and authorization system for secure access to website features, including email/password login, and social media sign-in.
- Designed and developed a comprehensive system for managing chef profiles and recipes and enabling users to explore chef profiles, view recipe details, and mark recipes as favorites.
- I developed a dynamic routing system on my website with React Router.

EDUCATION

Diploma-in-Engineering Computer Technology
Bangladesh Sweden Polytechnic Institute

(2016-2020)

Bachelor of Science in Computer Science and Engineering
Green University of Bangladesh

(2022 - present)

COURSES

Complete Web Development Course with Jhankar Mahub
Programming-Hero

(Dec, 2022-Jun, 2023)
